Pontex Products

Undertaking Focus

Pontex's Competitive Advantage

?	NIKE's Biggest injection outsole facility based in Asia
	v Precision Molding & RD technology
	v Collaborate with NIKE in products development
	v Major injection manufacturer in Asia
?	Top 3 of plastic composite material field in Taiwan
	v Over 30 research fellows
	v Great ability of mold improving、injection & structure
	v Goal: green collar/high value composite material
?	Multi indicator of Medical Consumable Products Authorized factory
	v GMP medical device factory set up in Q3 2011.
	v With professional injection and material technology.

Sports Equipment Injection Department

Chairman’s 5 years prospect

Sports Equipment Injection Department

Products

Baseball/football outsole/accessories

Basketball /accessories

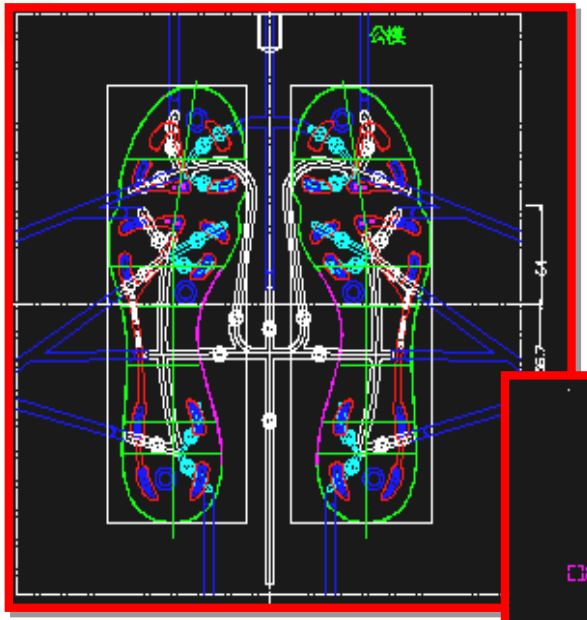

Tennis/badminton/Racket /Accessories

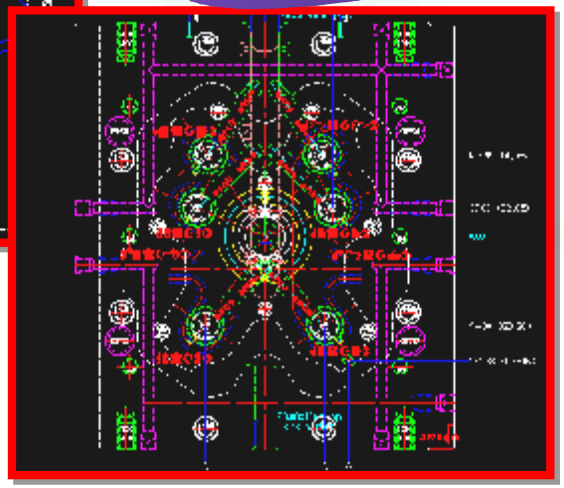

Golf footwear /Bag Pedestal/accessories

Core R&D Technology

specialized 3D design

Precision mold development

Asia biggest production Lines

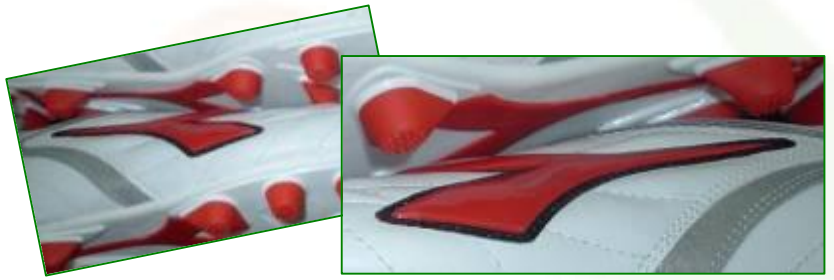

International Brand customers

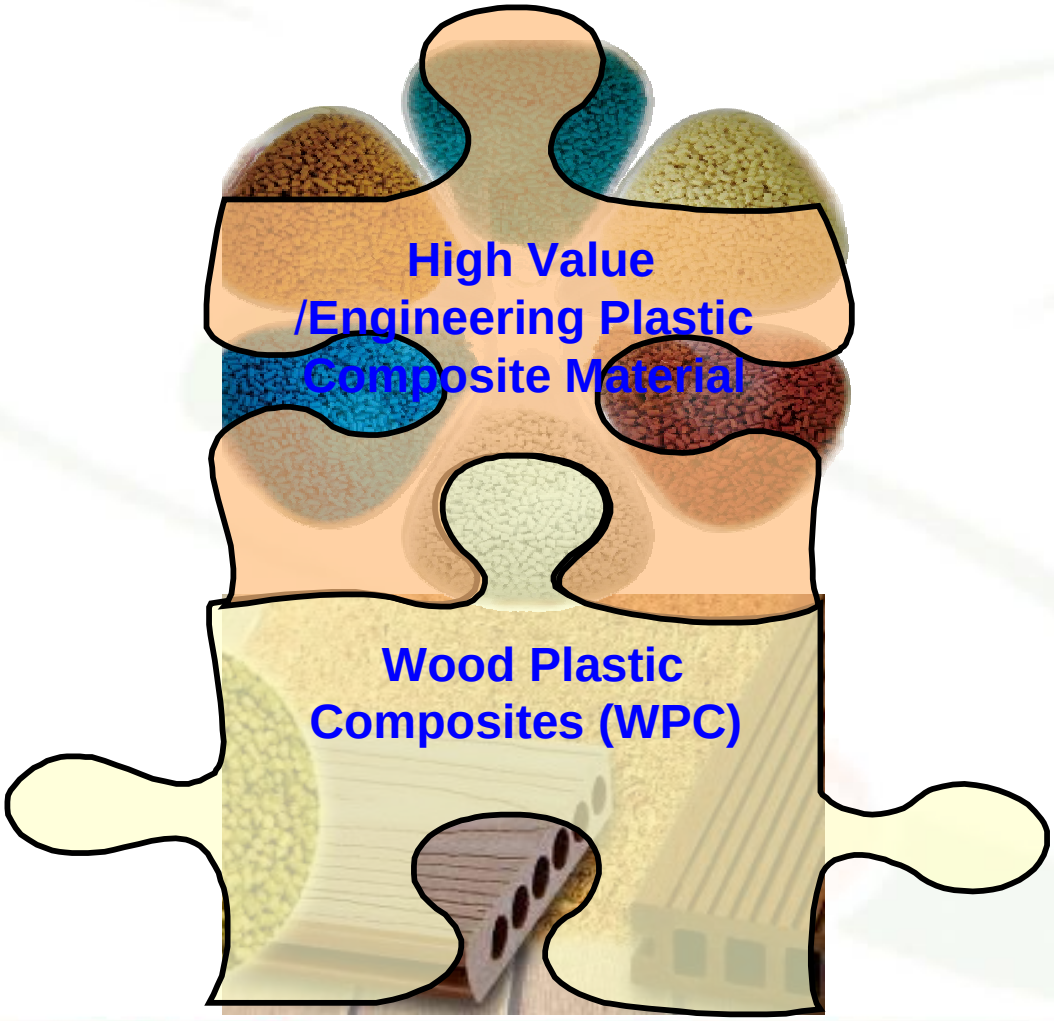

World wide Customers

Composite Material Department

Chairman’s 5 years prospect

Composite Material Department

NeoPet High Value Composite Material And Industry Applications

EPEAT composite material series

Recyclable ABS Series

Recyclable PET Series

Application：3C product 、 home appliance、 etc.

High performance **LCP** series

Glass fiber / Mineral fiber reinforced

Application：3C product 、Connector adaptor、 Medical equipment 、Stereo equipment 、etc.

NEOPET 綠寶

Halogen free fire retardant **TPU** series

Ester Type

Application：3C wire、Connector adaptor、etc.

PLA composite material series

Glass fiber reinforced / High specific weight

High gloss / Alloy

Application：3C product 、Sport equipment - parts、etc.

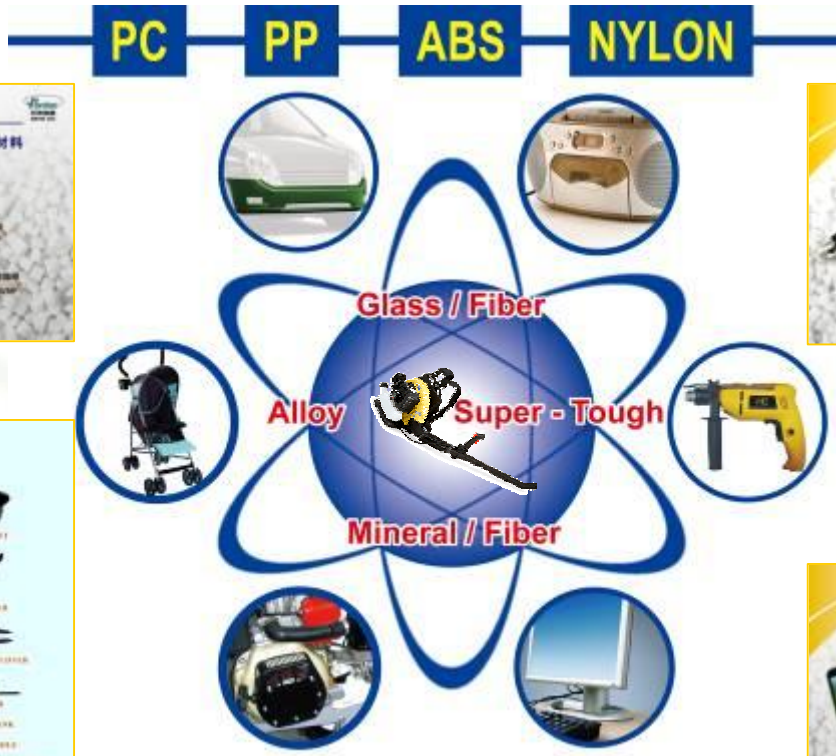

Engineering Plastic Composite Material And Industry Applications

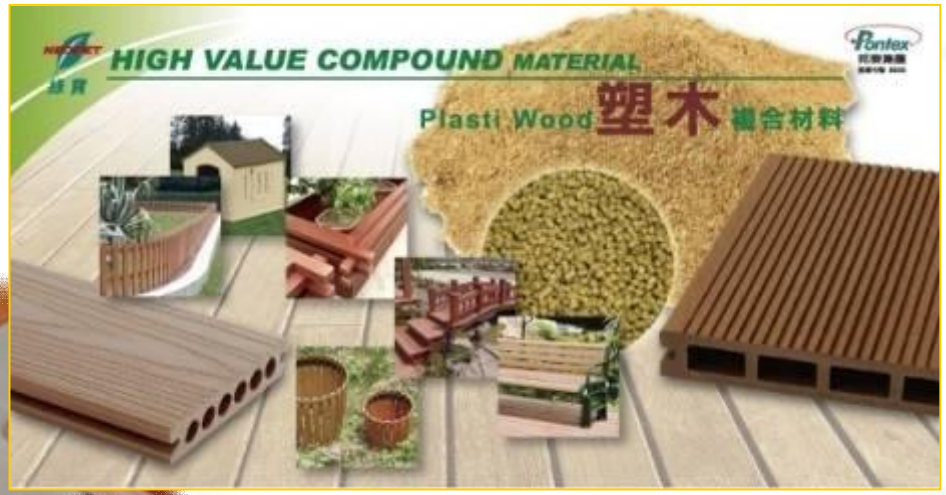

Wood Plastic Composites (WPC)

3 Chip

1 Sawdust

4 Extraction

2 Powder

- Hiking trail、Beach trail、Deck、Barrier、Pavilion、Bench、Picnic table
- Formwork 、Systematic furniture、Flooring、Window blind、Frame
- Pallet、Packing case

5

Application

R&D Center

Lab testing method defer to American standard (ASTM)

UNIVERSAL TESTING MACHINE

MOISTURE TESTER

H.D.T/VICAT TESTER

OPTICAL MICROSCOPE

HARDNESS TESTER/ROCKWELL

Factory

Engineering Plastic Composite Factory
(Taichung Factory)

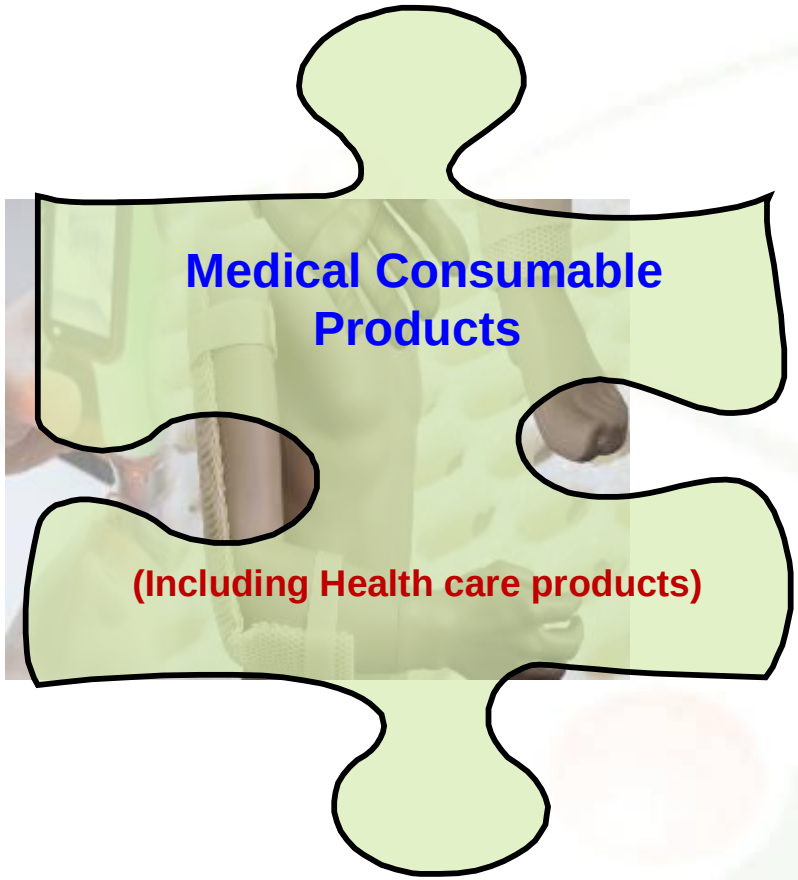

W.P.C. Factory
1st phase of production line set up in Q2 2011

Medical Consumable Department

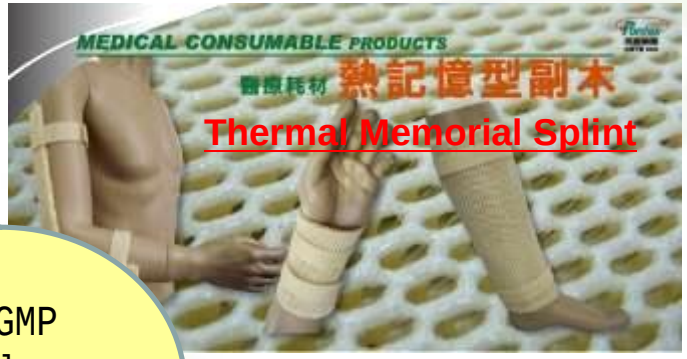

Chairman’s 5 years prospect

Medical Consumable Department

Product

Manufactured by Chin Hsiang Light Ray Co., Ltd

ISO13485 Medical Device Certificated

TFDA GMP Medical Device Certificated

Marketing (Domestic & Export)

- Disposable Plastic Blade-medical emergency system
- Thermal Memorial Splint-Rehabilitation system
- Light Ray Healthcare Products-local retailer

Chin Hsiang Light Ray GMP Factory

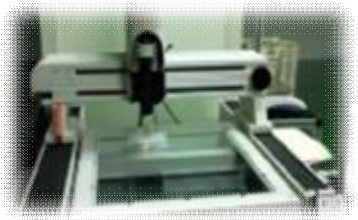

Light Ray Blade

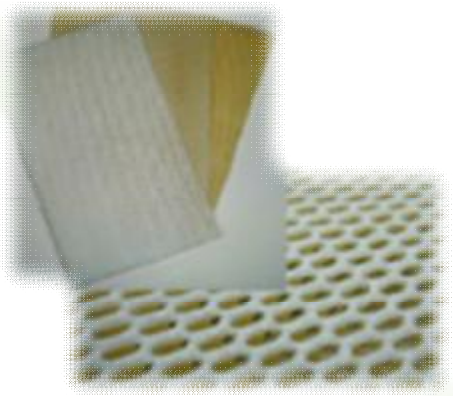

This device can be combined with laryngoscope, Which is the high scientific device for intubation.

1、Saving time in intubate。
2、Reduce the risk of intubate。

r Reduce injury design： smooth surface 。
r Individual duct design: easy to clean & on/remove endo。
r Non slip structure design ：non-slip, stability, efficiency。

Light Ray Thermal Memorial Splint

Light weight、breathable，remoldable via warm water or heat .
Pontex is the only public company based in Taiwan producing splint in order to provide cost effective and substitute for imported ones。

Light Ray splint quality advantage	
Breathablity	Excellent
Moldablity	Excellent
Strength	Excellent
Weight	Light weight
Memories	Excellent
Remoldable	Excellent
Mold speed	Fast

Diagram:

Light Ray Nano Health care series

- Nano quilt/ blanket/ pillow
- Nano Knee guard
- Nano Elbow pad
- Nano Waist protector
- Nano Insoles
- Nano Eyeshade
- Light Walk (Ecomax shoes)

Thank you for Your Attention
